2024 Poltrona Frau Imagine Collection

Imagination - a powerful tool to visualise our desires and shape our reality. The theme of the new Poltrona Frau collection is a profound inner contemplation on the vital role of creative freedom; an approach that enables us to appraise the past, to interpret the present, and to launch ourselves into the future.

How much space do we actually dedicate to the Imagination in our daily lives? Poltrona Frau invites us to contemplate this in its new Imagine collection, which will be presented in Milan on the occasion of the Salone del Mobile 2024.

In art, in literature and in music (John Lennon's profound lyrics immediately spring to mind), the Imagination has always played a vital and familiar role which, nevertheless, risks remaining constrained within the, albeit vast, confines of individual artistic expression. The Imagine Collection challenges this concept by enticing the Imagination to enter into, and to become part of, our daily lives. If you can imagine it, you can also achieve it... thus it becomes a tool for transforming our reality, based on our needs and desires.

The word 'Imagination' translates from the Greek word 'eikasia', meaning the ability to think outside of logical processes. This manner of thinking laterally has been part of Poltrona Frau's DNA since it was founded by Renzo Frau, renowned for his superior technical intellect and commercial intuition. And it has continued to evolve in ever-changing ways throughout the brand's history, in its catalogue and in the various lines of the collection which, this year, calls upon many new designers to collaborate on the various creative projects.

Bretagne, one of Poltrona Frau's most-coveted sofas, now revealed in its latest version: Bretagne Gran Comfort, revamped in the three specifics of ergonomics, proportions and upholstery.

This oh-so-generous restyling literally means more of everything: abundant and more-structured cushions, horizontal seamed cushioning with enveloping shapes that are high enough to provide a headrest making the sofa even more comfortable (and utterly irresistible) for 24/7 chill-out time.

The sofa's iconic tub structure and legs remain unchanged. However, the inner cushioning has been plumped up to be much more generous and inviting: the backrest cushions have also been increased in size and padding to provide lumbar support and depth for a head rest. The seat cushioning is also more robust, with an elegant seam accentuated by top stitching which, in addition being easy-on-the-eye, also helps to retain the sofa's shape.

Poltrona Frau Style & Design Centre Bretagne Gran Comfort

The innovative design is enhanced by the new upholstery which, on the structural parts (base, sides and backrest) can also be selected in the brand-new Pelle Frau® Motif Knits in four different colours: Deep Lavender, Sesame, Gray Salt, Paprika. This nubuck leather is heat-embossed to replicate a twill weave pattern, and the striking three-dimensional tactile and visual effect creates a beautiful play of contrasts with the cushions in smooth glossy leather or fabric.

This is Happy Jack, designed by creative duo Ludovica Serafini + Roberto Palomba, which owes its name to the characteristic armrest with a smile-shaped curvature.

The Happy Jack family rightly claims its place in Imagine Versatility, one of Poltrona's Frau's key themes for 2024 that showcases utmost versatility and customisation. The newly-extended collection evolves with a series of elements which, whilst maintaining the same formal characteristics, stand out with a curvier and more enveloping line, generating an idea of playful ease and more intimate conviviality.

Taking a closer look at the new features:
the 45° Corner Sofa, available with right/
left armrest or without end panels, the Pouf
designed with feet that match the sofa (also
available in a Large version), plus of course, the
super-comfortable reclining Chaise Longue
with optional right-left armrest, or without
armrest altogether.

These new modules facilitate multiple novel configurations, making the range even more adaptable to different spaces and needs. Thanks to the sheer variety of exquisite details, formal elegance and versatile solutions Happy Jack becomes the epitome of Image Versatility, basking in the limelight of the Poltrona Frau living room.

The collection can be upholstered entirely in Pelle Frau® leather, in Pelle Frau® leather combined with fabric, or in Cuoio Saddle Extra for the structure and Pelle Frau® leather or fabric for the cushions. The reclining seat features an in-built motor within the seat cushion which enables it to be gently raised into different positions to suit the user, from reclining to fully risen. The movement is easily adjusted via wireless remote control. In the reclining seats, the padding and stitching differ from the static modules and sofas as they are specifically designed to be functional for movement.

The upholstery used for the Martha armchair is Velvet Fabric Tribal. The black Tribal pattern is digitally printed onto a piece-dyed monochromatic background in four vivid colours (Red, Green, Purple and Yellow). The special finishing gives the velvet a soft dense handle.

The coveted Martha armchair - one of the most popular chairs in the Poltrona Frau catalogue - is now also presented in this new guise, which adds a touch of urbanity. The new version now flaunts a velvet interior, available in Red, Purple, Green or Yellow, with the external covering of the shell in Cuoio Saddle Extra, available in the shades currently on the price list.

Poltrona Frau presents its new Parka modular seating system. A collection that inaugurates an exciting collaboration with the creative duo Draga & Aurel.

Parka pays homage to the iconic jacket. From pop stars to streetwear: in the '90s the Oasis frontman (who was highly influenced by Mod's '60s fashion) managed to take an everyday garment and make it cool.

The Parka jacket became the epitome of street style, a versatile, protective garment but soft and comfortable at the same time. Much like the iconic jacket, the Parka sofa coordinates effortlessly with all types of interiors and is extremely versatile, despite (or even because of) its strong personality. The soft lines and generously padded upholstery that skims the floor hint at comfort and relaxation. The unusual elliptical shape of the backrest, which inclines to become an armrest and then a seamless seat, creates a concave or convex space that is both audacious and welcoming, seamlessly coordinating with different styles of interiors.

Draga & Aurel
Parka

The Parka collection comprises modular elements: a concave or convex armchair without armrests or with a terminal armrest, the latter also in a maxi version, either right-side or left-side. It can be upholstered either entirely in Pelle Frau®, in the various types of leather present in the catalogue, or in a leather + fabric combination. In this case the leather is applied to the external structure, while the fabric is applied to the seat, backrest and armrest. Tone-on-tone top stitching completes the aesthetic.

Softness, boldness and fun all in the one collection: Squash, designed by British artist Faye Toogood, captivates with its flippant nonchalance, starting with its playful and sensual name, reflecting a soft and sculptural approach to design.

The collection is comfortable and cozy right from the first glance. Exuberant and bold, yet gentle and reassuring forms interact with a mix of soft and rigid materials. The flowing contours and soft padding disrupt the static essence of formal furniture. Traditional English folk elements are reworked and combined with 1970s influences. Squash suggests a notion of simple, contemporary elegance based on unique objects that work well alone, together, or combined with other furnishings.

Faye Toogood Squash

The Squash armchair, with its generous and snug contours, is made with a rigid trestle frame made of polimex®, which supports the large, soft cushioning upholstered in Pelle Frau® or a combination of leather-fabric, with removable covering. The frame and legs are lightly padded, making them pleasant to the touch. The legs of the base are upholstered in leather. The seat and armrest cushioning

are made of polyester wadding and differentiated-density polyurethane foam for greater comfort. The seat base is made of birch plywood. The color combinations recommended by the designer for the Squash armchair are Cream, Sage, Blue and Brown.

The Squash occasional table showcases a bold and original design, with two lacquered wood blocks separated by a central cushion, upholstered in Pelle Frau® ColorSphere leather to match the color of the blocks. The occasional table is available strictly in four color combinations: Cream, Sage, Blue and Brown. A support mat in Pelle Frau® ColorSphere leather is available as an optional, matching the color of the table's central cushion.

The cozy Squash ottoman, perfectly paired with the armchair in the same collection, features a birch plywood frame and leather covering. The legs are lightly padded in polyurethane foam, making them pleasant to the touch. The ottoman cushion, with padding in polyurethane foam and polyester wadding, is removable and can be fully upholstered in Pelle Frau® leather or fabric. Just like the armchair, the color combinations recommended by the designer are Cream, Sage, Blue and Brown.

The Squash Rug in the similarly named collection features a checkerboard motif inspired by old English patchwork chairs.

Each square is hand-painted and the artwork translated into fabric using the traditional Berber knotting technique.

Faye Toogood Squash Rug

The Squash Rug is handmade and is available in different sizes and a range of colors. The dyeing process and use of natural fibers replicate the hand-painted design as faithfully as possible, while the plush fleece and subtly blended threads evoke the nuanced look of brushstrokes. All in accordance with the highest standards of sustainability.

The Squash wall ,mirror is upholstered in leather and replicates the curvy and flowing contours of its namesake collection.

Numbered individually and upholstered with Pelle Frau® printed with Fornasetti's Sole e Nuvole patterns, the Vanity Fair XC Imagine Edition armchair is available in a limited edition of 50 pieces

The frame is made of seasoned beech solid wood. It is padded using both hand-modelled vegetable horsehair and rubberized horsehair while the cushion of the seat is made of goose feather, with an expanded polyurethane insert to ensure it maintains its shape over time.

The seat, backrest and armrests come with springing made of biconical hand-tied steel springs fastened to jute belts. The rear and sides of the armchair are refined by a row of leather-covered nails. The lining comes with a Pelle Frau® Impact Less leather, that is printed digitally with slightly relief effect. The rear of the backrest features a gun barrel grey finish plate bearing the Fornasetti x Poltrona Frau® logo and serial number.

Teamwork makes the dream work...
and the collaboration between Ceccotti
Collezioni and Poltrona Frau, created
in 2023 with the launch of the DUO
collection, continues with an extended
range of products.

This year, the focus is on the home
dining area with new proposals, as
always, designed by Roberto Lazzeroni.
Kudos, firstly, to the gorgeous padded
chair as one of the new features
for this season, available with and
without armrests, combined with the
dining table in four variants created
by Ceccotti Collezioni. The DUO
range is completed by the Bench, in
more comfortable dimensions, and
the Cabinet with a new finish for the
external covering.

The Duo Chair, created by Poltrona Frau, has a padded seat with sinuous and enveloping lines. Everything about this chair exudes softness juxtaposed with charming playfulness: the inclined rear legs give momentum to the high-back chair or to the armchair which extends obliquely with two endearing 'ears'.

The convex seat plays with the slight concavity of the backrest, shifting the volumes. The plush padding, available completely covered in Pelle Frau® or in woven fabric, adds indulgent comfort as an invite to laid-back conversation. The legs in solid ash wood are available in a Wengé or Moka stained finish, dyed to sample shade or lacquered to match a RAL colour chart sample.

Ginger and Ginger Ale, the two compact armchairs upholstered in the new Boateng version, have an external shell in Pelle Frau® Kenté leather in the six available colours.

The interior of the body is in Pelle Frau® SC. The colour of the stitching matches the colour of the leather that it contours. Both armchairs are available in all the variations on the price list, i.e. fixed or swivel armchair for Ginger, while Ginger Ale can be ordered with a four-legged wooden or metal base, a four-spoke armchair with metal column, or five-spoke armchair with metal castors.

The success of the compact Nice chair is due to its striking curved ergonomic shape. With comfort and support in mind, the backrest and seat are designed as two flexed shapes that overlap in two folded layers, creating a void in the lower part of the backrest which becomes a distinctive feature.

The softly draped upholstery, either in Pelle Frau® or woven fabric, accentuates the armchair's relaxed and inviting curves which can also be covered in leather on the external part of the backrest. The extension of the collection with a new base in solid ash wood was created with versatility in mind to facilitate coordination with a wider choice of wooden tables in the catalogue.

The base and legs in solid ash wood are available in Natural finish, Wengé/ Moka stained, dyed to sample shade or lacquered to match a RAL colour chart sample.

Peek-a-Book, the intriguingly-named desk designed in 2021 by Roberto Lazzeroni, makes an impressive return and flaunts a larger version for the 2024 Imagine Collection, with a desktop generously extended by approx. 30 cm compared to the current version.

Peek-a-Book is constructed of poplar plywood panels counter-plated in MDF. The curved anterior edge, made of moulded polyurethane foam, folds forwards to form the edge of the desk, and conceals the drawers and interior accessory compartments just like a closed book.

Peek-a-Book base structure consists of an easel made from a triangular-section of Wengé-stained or Moka-stained solid ash wood. The drawer fronts are made of MDF dressed in Pelle Frau® leather to match the covering of the shaped top made of poplar plywood panels counter-plated in MDF. The desk top, drawer fronts, sides and access doors to the rear compartments are covered with Pelle Frau® ColorSphere®.

The two drawer fronts conceal compartments designed for a cable raceway that is accessible via side panels. The desk is available with the same options as the standard version currently on the price list. This new version is, however, equipped with a different sized pen storage tray to fit the new dimensions of the drawer: Large Pen Holder, covered in Pelle Frau® ColorSphere® leather.

To celebrate its 90th anniversary, the iconic Brera bench, designed by Guglielmo Ulrich and reissued by Poltrona Frau, marks the special occasion with a superb multi-coloured edition.

The chromatic choices from the Pelle Frau® ColorSphere® form an attractive multi-coloured effect that further enhances the artisanal mastery of the weaving. Robust leather strips - in SC 66 India tan shade - form the vertical weft of the seat, and flow coherently across the entire length of the bench to create a streamlined profile, and maintain the practical utility of the bench, respecting the balance between the formal rigor and the chromatic eclecticism so typical of William Ulrich's work.

Guglielmo Ulrich Brera 90th Anniversary Edition

Whilst the horizontal warp strips, woven into the weft, form a melodic sequence of warm and cool shades - Darsena, Bardiglio, Cocciopesto, Avorio and Garnet - sourced from the Pelle Frau® ColorSphere®. The two natural shades and the three mid-hues complement and contrast each other, to show off the regularity and precision of the weaving, creating an extremely modern geometric texture. The two tapered and lightweight side supports are in solid ash wood with a Wengé finish, also available, upon request, in Moka.

Brera 90th Anniversary is a special edition; orders will be taken from the inauguration of the Salone del Mobile up until December 31st 2024. The bench is authenticated by an unobtrusively-placed metal plaque. Alongside the 90th Anniversary edition, a new plain-colour version in Pelle Frau® SC also makes its debut, which joins the style in Cuoio Saddle Extra already present in the catalogue.

Archibald now makes its stylish arrival in the night zone with a bed that flirts with the spirit of the collection...Imagine refined elegance. A soft seductive bedframe is embraced by a high curved leather headboard that slopes subtly downwards to hug the two corners.

The vertical ripples of the plush leather, together with the tone-on-tone stitching that trims the headboard, hit the sweet spot of sophisticated luxury for a bed that, despite its confident contours, conveys intimacy and warmth. The Archibald bed is available in five sizes, two different height measurements from the ground, and a practical version with retractable storage drawer is also an option.

Jean-Marie Massaud Archibald Bed

It is entirely upholstered in Pelle Frau® ColorSphere® or Nest, with the rear of the bed also available in the Poltrona Frau Jacquard fabric version which is more practical if placed adjacent to a wall. The model with storage drawer is only available in the version suitable for a 170 cm mattress.

The drawer can be accessed by lifting the bed base by means of two leather handles which activate a gas spring feature which has the option of a single or double opening movement.

Designed by Sebastian Herkner, Stock'n Roll comprises a collection of storage units inspired by jewelry boxes, characterized by a sleek but exclusive design featuring intricate details and luxury materials.

Stock'n Roll can be placed next to an armchair or used as a bedside table on either side of the bed. It is cylindrically shaped with the edge of the cover deviating slightly from the body, forming a handle inviting it to be opened.

Sebastian Herkner Stock'n Roll

The supporting frame and door of the Stock'n Roll bedside table are made of curved beech plywood and solid beech wood. The upholstery is in Pelle Frau® leather, with tone-on-tone stitching. The storage unit is available with left or right opening. With a single gesture, the door featuring a small inner tray opens to reveal an equipped compartment complete with organizer shelf. The shelf and tray are made of birch plywood and finished to match the outer surface. The top can be upholstered in Pelle Frau® leather to match the inner and outer surface, or in precious semi-gloss marble.

Nymph is inspired by the eponymous female deities from ancient Greek mythology, benevolent personifications of nature at the service of human beings.

Inspired by the concept of a gentle presence that accompanies our daily life, this blown glass lamp with a delicately-pleated lampshade floats weightlessly on its leather-covered base. As a tribute to the classic leather tufted button on Poltrona Frau upholstery, the on/off and dimmer switch is designed as a brass button embedded in the lampshade base. When switched on, the illumination transforms the design object into a graceful incandescent sculpture, reminiscent of gentle ethereal maiden.

Available in Pearl and Fumé finishes, the blown glass lampshade is a single cylinder shape with vertical bevelled ribbing that creates a unique visual illumination effect. The lamp frame is a cylindrical tube in polymethyl methacrylate (PMMA) with a LED module encapsulated in a base shaped like a truncated cone.

This is covered in Pelle Frau® ColorSphere® available in a choice of colours - Seppia, Maggese, Sahara, Ginger Bread, Fresco Blue - offset with contrasting stitching and metallic brass details. The lamp has an on/off touch button dimmer switch. LED 18W 3000K. 25W.

Water Illusion, the vase collection by Assia Karaguiozova, captivates with a new variant in tones of green, *Emerald Whispers*.

Assia Karaguiozova Water Illusion

Entirely handmade by Italian master glassmakers with the complex Pâte de verre technique, the Bulgarian designer's vases, artisan-made in Venetian glassworks, have unique shapes making each piece a limited-edition.

The thick and transparent irregular wavy glass 'petals' whisper the language of the waves. In contact with light, the interior double texture evokes the ripple effect of water on a surface. The four sculptural models push the boundary between art and design, and the two vase and two bowl styles are available in two different formats.

Archibald Managerial and Archibald Executive also introduce a tad of contemporary elegance to the home office sector.

Based on meticulous ergonomic research, the new Archibald armchairs are designed to accompany the body's full range of movements, and support correct posture for the desk user. Archibald Managerial and Archibald Executive have a base in die-cast aluminium equipped with a swivel mechanism that enables the armchair to be rotated 360° with complete height adjustment.

Leisure time goes big time with the Pillow armchair by Poltrona Frau in its new improved version specifically designed for home Cinemas.

Pillow Cinema armchair is meticulously studied to incorporate the latest in design and technology offering an authentic high-level home theatre experience.

Pillow Cinema

Thanks to three separate mechanisms that enable optimal adjustment of the back, foot and headrest, Pillow is fully reclining. The push-button panel, placed internally on the armrest facilitates control of the various commands and, as the name suggests, the Home button simultaneously returns all the elements to the starting position.

Pillow can also be customized with accessories such as a Cinema absolute- must-have drink holder cooler/heater with wireless charging, an armrest lamp with a USB-A charging station, and a practical leather over-armrest that serves as a side table for small items.

Pillow Cinema is available with various seating options. In addition to the single armchair for solo viewing and the cosy Love Seat (two adjoined seats without a central armrest), it can be compiled in numerous ways by placing several armchairs side by side or combining them with the Love Seat version.

The controls for head, back and footrest can be mains or battery-powered and, depending on the version chosen, the appropriate transformer or battery charger must be purchased apart. Armchairs equipped with electrical accessories can only be powered by the mains (battery power is excluded), and the chair can be upholstered in either Pelle Frau® or a choice of fabric. Pillow can be freestanding or permanently fixed to the ground.

PELLE FRAU® LEATHER - 2024 NEW LEATHERS

PELLE FRAU® KENTÉ
Last, but by no means least, the new Pelle Frau® Kenté uses digital printing to recreate the abstract motifs and bright or dark colours of the traditional African Kenté fabric on leather. The patterns have a strong symbolic meaning in Ghanan cultural heritage, and are worn on certain ceremonial occasions. A variant that we find in the six skin tones: Black, Red, Yellow, Purple, Blue and Green. Ozwald Boateng has reinterpreted the textile pattern specifically for this leather upholstery, which acquires a particularly captivating intensity thanks to the innovative printing process and use of vibrant colours. The elegant Ren bookcase, the Peek-a-Book desk and the Ginger and Ginger Ale armchairs all make their entry into the Boateng collection with this new upholstery.

PELLE FRAU® NEST IMPACT LESS
Rich, strong, solid, yet incredibly soft and silky to the touch, Pelle Frau® Nest Impact Less becomes Impact Less, meaning tanned without chromium and through an innovative process that reduces water and chemical usage and uses 100% renewable energy sources. A process that, besides being more environmentally friendly, enhances the intrinsic qualities of leather. Pelle Frau® Nest feels softer to the touch, thanks to a fuller and rounder hand. The greater three-dimensionality and silkiness of the surface are enhanced by the shiny and homogeneous finish. The color palette also renews, adding to twelve existing shades, eight new, intense, and luminous colors.

PELLE FRAU® MOTIF KNITS
A particularly interesting tactile and visual effect characterizes Pelle Frau® Motif Knits, a covering created through an innovative 3D printing process that simulates a relief woven pattern ("twill"), also used in fabric printing, evoking the world of wicker and basketry. Pelle Frau® Motif Knits, obtained from a hot digital printing process, draws inspiration from the fashion world to reproduce a pattern similar to weaving, with a three-dimensional effect that is extremely contemporary on its own or combined with smooth leather.

POLTRONA FRAU FABRICS - 2024 NEW FABRICS

HARUKA
Haruka is the bouclé fabric made through a broad, discontinuous spinning on a plain, unbleached linen canvas. The result is a textured and three-dimensional-looking material. Irregular in its craftsmanship and rich in texture, the Haruka fabric is designed to dress the products with rich, layered visual and tactile sensations reminiscent of the world of fashion and haute couture.

KALAHARI
The characteristic irregularity of the fibers gives Kalahari a particular textured and flame-like appearance. The weave of warp and weft creates a small relief, similar to a rice grain, which enlivens the appearance of this faux fil-à-fil fabric and gives the surface a three-dimensional aspect, further enhanced by a slight sheen. Kalahari is available in a chromatic range of ten colors.

SURI
As soft and tender as a teddy bear, the Suri fabric is composed of yarns of various kinds, with the protagonist being a substantial and precious Alpaca bouclette. This precious material, originating from Peru and spun in Italy, gives life to a soft, textured, and refined Bouclé. Ideal when paired with leathers, Suri is available in the classic Natural Beige as well as the new shades of Sky Blue and Mahogany.

WOOL SATIN
Wool Satin has an extremely pleasant, soft, and cool hand feel. It is obtained from densely woven fine Merino wool satin, for an optimal, soft, and firm drape. Thanks to its elasticity and abrasion resistance, Wool Satin is ideal for covering any type of upholstery. The color range includes eight intense colors, from neutral shades with mélange yarns to brighter solid hues.

PELLE FRAU® LEATHER - 2024 NEW LEATHERS

PELLE FRAU® KENTÉ
La nuova Pelle Frau® Kenté, infine, utilizza la stampa digitale per ricreare su pelle la grafica del tradizionale tessuto Kenté africano, caratterizzato da motivi astratti e da colori intensi, chiari o scuri, dal forte significato simbolico, tipicamente indossati nelle occasioni formali. Una varietà che ritroviamo nelle sei tonalità della pelle: Black, Red, Yellow, Purple, Blue e Green. Ozwald Boateng ha reinterpretato il motivo tessile appositamente per questo rivestimento in pelle, che grazie al processo di stampa innovativo e alle cromie vivaci acquista una particolare intensità. La libreria Ren, la scrivania Peek-a-Book e le poltroncine Ginger e Ginger Ale entrano nella collezione Boateng con questo nuovo rivestimento.

PELLE FRAU® NEST IMPACT LESS
Ricca, forte, solida, eppure incredibilmente morbida e setosa al tatto, Pelle Frau® Nest Impact Less diventa Impact Less, ovvero conciata senza cromo e attraverso un procedimento innovativo che riduce l'uso di acqua e sostanze chimiche e utilizza fonti di energia rinnovabile al 100%. Una lavorazione che, oltre ad essere più rispettosa dell'ambiente, esalta le qualità intrinseche del pellame. La Pelle Frau® Nest sembra infatti più soffice al tatto, grazie a una mano più piena e rotonda. La maggiore tridimensionalità e la setosità della superficie è esaltata dalla finitura lucente e omogenea. Anche la palette cromatica si rinnova aggiungendo a dodici tonalità già esistenti, otto nuovi colori, intensi e luminosi.

PELLE FRAU® MOTIF KNITS
Un effetto tattile e visivo particolarmente interessante caratterizza la Pelle Frau® Motif Knits, rivestimento realizzato grazie a un'innovativa stampa 3D che simula un motivo di intreccio a rilievo ("twill") utilizzato anche nella stampa dei tessuti e che evoca il mondo del vimine e delle cesterie è Pelle Frau® Motif Knits, ottenuta da un procedimento di stampa digitale a caldo, trae ispirazione dal mondo della moda per riprodurre un motivo simile all'intreccio, con un effetto tridimensionale che risulta estremamente contemporaneo da solo o abbinato alla pelle liscia.

POLTRONA FRAU FABRICS - 2024 NEW FABRICS

HARUKA
Haruka è il tessuto bouclè realizzato attraverso una filatura ampia e discontinua su una tela in puro lino greggio. Il risultato è un materiale dall'aspetto materico e tridimensionale. Irregolare nella sua artigianalità e ricco di texture, il tessuto Haruka è destinato a vestire i prodotti regalando sensazioni visive e tattili ricche e stratificate, riconducibili al mondo della moda e dell'haute couture.

KALAHARI
La caratteristica irregolarità delle fibre dona a Kalahari una particolare texture materica e fiammata. L'intreccio di trama e ordito crea un piccolo rilievo, simile a un chicco di riso, che movimenta l'aspetto di questa tela fil-à-fil finto unita e conferisce alla superficie un aspetto tridimensionale, ulteriormente esaltato da una leggera brillantezza. Kalahari è disponibile in una gamma cromatica di dieci colori.

SURI
Morbidissimo e tenero come un orsetto, il tessuto Suri è composto da filati di varia natura, in cui protagonista è una consistente e preziosa bouclette di Alpaca. Materiale prezioso proveniente dal Perù e filata in Italia, dà vita a un soffice Bouclé, materico e raffinato. Ideale in abbinamento alle pelli, Suri viene proposto nel classico Beige naturale e negli inediti Azzurro e Mogano.

WOOL SATIN
Wool Satin ha una mano estremamente piacevole, morbida e fresca al tatto. È ottenuto da raso di finissima lana Merinos densamente ordita, per una caduta ottimale, morbida e rigorosa. Grazie alla sua elasticità e resistenza all'abrasione, Wool Satin è ideale per rivestire qualunque tipo di imbottito. La gamma cromatica comprende otto colori intensi, dai neutri con filati mélange alle tinte unite più brillanti.

PELLE FRAU® LEATHER - 2024 NEW LEATHERS

PELLE FRAU® KENTÉ
Le nouveau cuir Pelle Frau® Kenté, utilise l'impression numérique pour recréer sur le cuir le graphisme du tissu traditionnel africain Kenté, caractérisé par des motifs abstraits et des couleurs intenses, claires ou foncées, à forte signification symbolique, typiquement porté lors d'occasions formelles. Une variété que l'on retrouve dans les six nuances de cuir : Black, Red, Yellow, Purple, Blue et Green. Ozwald Boateng a réinterprété le motif textile spécifiquement pour ce revêtement en cuir, qui acquiert une intensité particulière grâce au processus d'impression innovant et aux couleurs vives. La bibliothèque Ren, le bureau Peek-a-Book et les fauteuils Ginger et Ginger Ale entrent dans la collection Boateng avec ce nouveau revêtement.

PELLE FRAU® NEST IMPACT LESS
Riche, solide, solide, mais incroyablement doux et soyeux au toucher, Pelle Frau® Nest Impact Less devient Impact Less, ce qui signifie tanné sans chrome et grâce à un processus innovant qui réduit l'utilisation de l'eau et des produits chimiques et utilise des sources d'énergie 100% renouvelables. Un processus qui, en plus d'être plus respectueux de l'environnement, améliore les qualités intrinsèques du cuir. Pelle Frau® Nest semble en effet plus doux au toucher, grâce à une main plus pleine et plus ronde. La plus grande tridimensionnalité et la soie de la surface sont rehaussées par la finition brillante et homogène. La palette de couleurs se renouvelle également, ajoutant à douze nuances existantes, huit nouvelles couleurs intenses et lumineuses.

PELLE FRAU® MOTIF KNITS
Un effet tactile et visuel particulièrement intéressant caractérise Pelle Frau® Motif Knits, un revêtement créé grâce à un processus d'impression 3D innovant qui simule un motif de tissage en relief ("twill"), également utilisé dans l'impression sur tissu, évoquant le monde de l'osier et de la vannerie. Pelle Frau® Motif Knits, obtenu à partir d'un processus d'impression numérique à chaud, s'inspire du monde de la mode pour reproduire un motif similaire au tissage, avec un effet tridimensionnel extrêmement contemporain seul ou combiné avec du cuir lisse.

POLTRONA FRAU FABRICS - 2024 NEW FABRICS

HARUKA
Haruka est le tissu bouclé réalisé grâce à un filage large et discontinu sur une toile de lin naturelle non blanchie. Le résultat est un matériau texturé et tridimensionnel. Irrégulière dans son artisanat et riche en texture, la toile Haruka est conçue pour habiller les produits avec des sensations visuelles et tactiles riches et superposées, rappelant le monde de la mode et de la haute couture.

KALAHARI
L'irrégularité caractéristique des fibres confère à Kalahari une texture particulière et une apparence flamboyante. L'entrelacement de la trame et de la chaîne crée un léger relief, semblable à un grain de riz, qui anime l'aspect de ce tissu faux fil-à-fil uni et donne à la surface un aspect tridimensionnel, rehaussé par une légère brillance. Kalahari est disponible dans une gamme chromatique de dix couleurs.

SURI
Aussi doux et tendre qu'un ourson, le tissu Suri est composé de fils de diverses natures, dont la vedette est une bouclette d'alpaga substantielle et précieuse. Ce matériau précieux, originaire du Pérou et filé en Italie, donne naissance à un bouclé doux, texturé et raffiné. Idéal en association avec des cuirs, le Suri est proposé dans le classique Beige naturel ainsi que dans les nouvelles nuances de Bleu Ciel et de Mogano.

WOOL SATIN
Le Wool Satin a une main extrêmement agréable, douce et fraîche au toucher. Il est obtenu à partir de satin de laine mérinos finement tissé, pour une chute optimale, douce et rigoureuse. Grâce à son élasticité et à sa résistance à l'abrasion, le Wool Satin est idéal pour recouvrir tout type de rembourrage. La gamme de couleurs comprend huit couleurs intenses, des tons neutres avec des fils mélangés aux teintes unies plus vives.

PELLE FRAU® LEATHER - 2024 NEW LEATHERS

PELLE FRAU® KENTÉ
最后是新款 Pelle Frau® Kenté，采用了数字印花技术，在皮革上重现了非洲传统 Kenté 织物的图案，这种织物的特点是图案抽象、色彩浓烈、明暗交错，具有强烈的象征意义，通常在正式场合穿着。多种变化存在于皮革的六种色调中：黑色、红色、黄色、紫色、蓝色和绿色。Ozwald Boateng 专门在这款皮革套面上重新诠释了织物图案，创新的印花工艺和鲜艳的色彩使该产品更具张力。Ren 书柜、Peek-a-Book 书桌以及 Ginger 和 Ginger Ale 扶手椅都采用了这种新的套面材料，从而加入了 Boateng 系列。

PELLE FRAU® NEST IMPACT LESS
丰富，坚固，结实，但触感柔软丝滑，Pelle Frau® Nest Impact Less成为Impact Less，意味着不含铬的鞣制，通过创新工艺减少水和化学品的使用，并使用100%可再生能源。这一工艺不仅更环保，还提升了皮革的内在品质。Pelle Frau® Nest触感更软，手感更饱满圆润。表面的立体感和丝滑感通过闪亮均匀的光泽得到增强。配色板也得到更新，增加了十二种现有色彩，以及八种新的鲜艳色彩。

PELLE FRAU® MOTIF KNITS
Pelle Frau® Motif Knits具有特别引人注目的触觉和视觉效果， 这是通过一种创新的3D打印工艺制成的覆盖物，模拟了一种凸起的编织图案（“twill”），也用于面料印花，唤起了柳条和篮织品的世界。

Pelle Frau® Motif Knits采用热数字打印工艺制成，灵感来自时尚界，以再现类似编织的图案，具有极具当代感的三维效果，无论是单独使用还是与光滑的皮革结合使用。

HARUKA
Haruka是通过在简单、未漂白的亚麻画布上进行广泛而不连续的纺织而制成的布克雷织物。结果是一种有纹理、立体外观的材料。Haruka织物在工艺上不规则，质地丰富，旨在用丰富、层次分明的视觉和触觉感觉来装饰产品，让人联想到时尚和高级定制的世界。

KALAHARI
纤维的特征不规则性赋予了Kalahari一种独特的质感和火焰般的外观。经纬线的编织形成了类似米粒般的小凸起，为这种仿真纱线织物增添了活力，并赋予表面立体感，进一步由轻微光泽提升。Kalahari有十种颜色可供选择。

SURI
Suri织物柔软而温柔，就像一个泰迪熊，由各种各样的纱线组成，其中主演是厚实而珍贵的秘鲁羊驼卷曲毛线。这种珍贵的材料源自秘鲁，在意大利纺制，赋予了织物柔软、有质感和精致的卷曲效果。与皮革搭配时最理想，Suri提供经典的自然米色以及新推出的天蓝色和红木色。

WOOL SATIN
Wool Satin手感极为舒适，柔软且凉爽。它由密织的精细美利奴羊毛织制成，提供最佳的柔软且坚固的下垂效果。由于其弹性和耐磨性，Wool Satin非常适合用于覆盖任何类型的填充物。色彩范围包括八种浓郁的颜色，从混纺纱线的中性色调到更明亮的纯色。

IT
Immaginare è la capacità di pensare il nuovo e di dare forma ai desideri. Immagine, il tema della nuova collezione Poltrona Frau è una profonda riflessione sulla potenza della libertà creativa; un’attitudine che permette di rinnovare il passato, interpretare il presente e proiettarci nel futuro.

Quanto spazio lasciamo all’immaginazione nel mondo di oggi? Poltrona Frau, attraverso la sua nuova collezione Imagine, risponde a questo quesito esplorando e coinvolgendo tutti noi nell’esperienza della sua presentazione di Milano, in occasione del Salone del Mobile 2024.

Nella pittura, nella letteratura, nella musica (viene subito in mente la meravigliosa canzone di John Lennon), l’immaginazione ha sempre avuto un ruolo centrale e riconosciuto. Che però rischia di restare confinato nel recinto, pur vasto, dell’espressione artistica individuale. La sfida di Imagine Collection è invece proprio quella di trasportare l’immaginazione nel nostro contesto quotidiano, di utilizzarla come strumento di trasformazione del reale secondo le nostre necessità e i nostri desideri.

La parola “immaginazione” traduce il greco “eikasia”, ovvero l’abilità di pensare al di fuori dei processi logici. Una capacità che Poltrona Frau ha nel suo DNA fin dai tempi di Renzo Frau e delle sue intuizioni tecniche, estetiche e commerciali. E che continua a declinare in modi sempre nuovi nel corso della sua storia, del suo catalogo e nei vari filoni della collezione, che quest’anno vede molti nuovi designer chiamati a collaborare ai vari progetti.

BRETAGNE GRAN COMFORT
Poltrona Frau Style & Design Centre

Bretagne, uno dei divani più conosciuti di Poltrona Frau, viene ora affiancato da una nuova versione: Bretagne Gran Comfort, ripensata nell’ergonomia, nelle proporzioni e nel rivestimento. Il restyling è caratterizzato da una cuscinatura abbondante e più strutturata, dalle linee orizzontali e avvolgenti che arrivano ad accogliere la testa, per rendere il divano ancora più confortevole e favorire una socialità rilassata e spontanea. I piedi e la caratteristica struttura a vasca che contraddistingue il modello Bretagne restano inalterati. Cambia invece la cuscinatura interna, dalle dimensioni più generose e invitanti: i cuscini dello schienale sono stati aumentati nelle dimensioni e nelle imbottiture, per fungere da poggiaresi e salire fino ad accogliere la testa, mentre i cuscini di seduta sono più strutturati, con una linea elegante accentuata dalle cuciture che, oltre alla funzione estetica, aiutano a mantenere inalterata la forma nel tempo.

Il design innovativo di Bretagne Gran Comfort è sottolineato dal rivestimento che, sulle parti strutturali (base, fianchi e schienale), può essere anche nella nuovissima Pelle Frau® Motif Knits in quattro tinte diverse: Deep Lavender, Sesame, Grey Salt, Paprika. Questa pelle nabuk viene stampata a caldo ricreando l’effetto simile a un intreccio a rilievo (“twill”) utilizzato anche nella realizzazione dei tessuti. L’effetto tattile e visivo, molto tridimensionale, crea un bel gioco di contrasti con la parte di cuscinatura in pelle liscia o in tessuto.

HAPPY JACK

Ludovica Serafini + Roberto Palomba
Disegnata dal duo Ludovica Serafini + Roberto Palomba, Happy Jack deve il suo nome al caratteristico bracciolo dalla curvatura a forma di sorriso. La collezione si evolve con una serie di elementi che, pur mantenendo le stesse caratteristiche formali, si distinguono

per una linea più curva e avvolgente, promuovendo un’idea di convivialità più facile e intima. Tra le novità: il Divano Angolare a 45°, disponibile con bracciolo destro o sinistro o senza terminali, il Pouf pensato con gli stessi piedi del divano, anche in versione Large, e la Chaise Longue reclinabile con bracciolo DX-SX o senza braccioli. I nuovi moduli consentono di moltiplicare le configurazioni possibili, adattandole a spazi ed esigenze diverse. Happy Jack diventa così un arredo ancora più centrale nel living di Poltrona Frau, grazie alla varietà delle soluzioni, alla ricchezza dei dettagli e alla sua eleganza formale. Il rivestimento può essere interamente in Pelle Frau®, in Pelle Frau® abbinata a tessuto, o in Cuoio Saddle Extra per la struttura e Pelle Frau® o tessuto per le cuscinature. La seduta reclinabile è dotata di un meccanismo elettrificato all’interno del cuscino sedile che ne consente il sollevamento con diversi angoli di apertura, per modificare l’inclinazione della schiena e delle gambe della persona sdraiata. Il movimento è facilmente regolabile tramite telecomando wireless. Nelle sedute reclinabili, l’imbottitura e le cuciture differiscono dai moduli e dai divani senza meccanismo perché questi sono concepiti affinché siano funzionali alla movimentazione.

OZWALD BOATENG X POLTRONA FRAU

Martha

Roberto Lazzeroni

Il rivestimento usato per la poltrona Martha, è il velluto Velvet Fabric Tribal. Su un fondo monocromatico tinto in pezza dalle quattro vivide colorazioni (Red, Green, Purple e Yellow), viene stampato in digitale il pattern Tribal di colore nero. Lo speciale finissaggio conferisce al velluto un tatto morbido e una mano piacevole. Anche la poltroncina Martha viene oggi presentata in questa nuova veste, che aggiunge un tocco dandy e sofisticato a una delle sedute più amate del catalogo Poltrona Frau. La nuova versione ha quindi l’interno in velluto, disponibile in Red, Purple, Green o Yellow, e il rivestimento esterno della scocca in Cuoio Saddle Extra, nei colori attualmente a listino.

Ren Bookcase

Neri&Hu

L’edizione speciale della libreria Ren, nelle varianti Low, High e Freestanding Bookcase, ha i ripiani rivestiti in Pelle Frau® Kenté. Le cuciture sono in abbinamento tono su tono.

Peek-a-book

Roberto Lazzeroni

Stessi colori di Pelle Frau® Kenté per il piano in pelle della scrivania Peek-a-Book che può essere equipaggiata con diversi accessori, quali il portapenne, la presa elettrica e la canalina copricavo.

Ginger Ale

Roberto Lazzeroni

Le due poltroncine Ginger e Ginger Ale, nella nuova versione Boateng, hanno l’esterno scocca in Pelle Frau® Kenté nei sei colori previsti. L’interno scocca è invece in Pelle Frau® SC. Il colore del filo di cucitura segue l’abbinamento con la pelle su cui è applicato. Entrambe le poltroncine sono disponibili in tutte le varianti a listino, ovvero poltroncina fissa o girevole per Ginger, mentre Ginger Ale può essere con base in legno o in metallo a quattro gambe, poltroncina a quattro razze, con colonna in metallo, a cinque razze con ruote, sempre in metallo.

PARKA

Draga & Aurel

Poltrona Frau presenta la sua nuova serie

di divani componibili e modulari Parka. Una collezione che segna l’inizio di una collaborazione con il duo creativo Draga & Aurel. Parka rende omaggio all’indumento classico dello streetwear anni ’90, tipico della cultura grunge americana e diventato poi simbolo di un’intera generazione.

Proprio come il mitico capo d’abbigliamento, Parka è un divano passe-partout facile da abbinare ed estremamente versatile, nonostante la sua forte personalità. Le linee morbide e i volumi generosi imbottiti fino a terra promettono comodità e relax. La particolare forma ellittica dello schienale, che digrada diventando bracciolo e poi seduta senza soluzione di continuità, crea uno spazio concavo o convesso al tempo stesso grintoso e accogliente, capace di adattarsi con disinvoltura a stili differenti.

La collezione Parka comprende elementi modulari componibili: poltrona concava o convessa senza braccioli o con un bracciolo terminale, quest’ultimo anche in versione maxi, sempre destro o sinistro. Il rivestimento può essere completamente in Pelle Frau®, nelle varie tipologie presenti in catalogo, oppure nella combinazione pelle + tessuto. In questo caso il primo rivestimento viene applicato sulla struttura esterna, mentre il secondo alla seduta, allo schienale e al bracciolo. Le cuciture sono tono su tono.

SQUASH

Faye Toogood

Morbidezza, audacia e divertimento in un’unica collezione: Squash, disegnata dall’artista britannica Faye Toogood, conquista con la sua irriverente disinvoltura già dal nome, giocoso e sensuale, che riflette un approccio al design morbido e scultoreo. La collezione è confortevole e accogliente fin dal primo sguardo. Forme esuberanti e ardite ma al tempo stesso gentili e rassicuranti dialogano con materiali diversi, morbidi e rigidi. Le linee organiche e le imbottiture soffici sovvertono la staticità di un arredamento formale. Elementi tipici del folk inglese vengono reinterpretati e mescolati a suggestioni anni ’70. Squash propone un’idea di eleganza facile e moderna, fatta di oggetti unici che stanno bene da soli, insieme o abbinati ad altri arredi.

Poltrona Squash

La poltrona Squash, dalle forme generose e accoglienti, ha una struttura rigida a cavalletto realizzata in polimex® su cui è poggiata una cuscinatura ampia e morbida, rivestita in Pelle Frau® o nella combinazione pelle-tessuto, e sfoderabile. Scocca e gambe sono caratterizzate da una leggera imbottitura che le rende gradevoli al tatto. Le gambe del basamento sono ricoperte in pelle. Il cuscino della seduta e i braccioli sono in ovatta poliestere e poliuretano espanso a densità differenziata, per un maggiore comfort. Il basamento del sedile è in multistrato di betulla. DUO CHAIR/SMALL ARMCHAIR

Roberto Lazzeroni

La collaborazione tra Ceccotti Collezioni e

Poltrona Frau, nata nel 2023 con il lancio della collezione DUO, prosegue oggi con l’ampliamento dell’offerta. Quest’anno il focus è sulla zona pranzo della casa, con nuove proposte sempre a firma del designer Roberto Lazzeroni. Fra le novità spiccano la nuova sedia imbottita, con e senza braccioli, in abbinamento al tavolo in quattro varianti realizzato da Ceccotti Collezioni. Completano la gamma DUO la Panca, in una variante dimensionale e il Cabinet in una nuova finitura per rivestimento esterno.

La Duo Chair, realizzata da Poltrona Frau, è una seduta imbottita dalle linee sinuose e avvolgenti. Tutto, in questa poltroncina, comunica un senso di morbidezza e al tempo stesso di dinamismo: le gambe posteriori inclinate conferiscono slancio alla sedia dallo schienale alto o alla poltroncina che si allarga lateralmente in due “orecchie” accoglienti. Il sedile convesso gioca con la leggera concavità dello schienale, movimentando i volumi. La ricca imbottitura, completamente rivestita in Pelle Frau® o tessuto, aggiunge un surplus di comfort e invita al relax e alla conversazione. Le gambe in legno massello di frassino possono essere in finitura tinto Wengé o Moka, tinto a campione o laccato RAL a campione.

NICE

Poltrona Frau Style & Design Centre

La seduta Nice deve il suo successo al design ergonomico e avvolgente. I due gusci dello schienale e della scocca si flettono e si sovrappongono come due fogli piegati, creando un vuoto nella parte posteriore dello schienale che diventa un segno distintivo e riconoscibile. Il morbido rivestimento sartoriale in Pelle Frau® o in tessuto enfatizza le forme comode e accoglienti della poltroncina, che può essere rivestita anche in cuoio nella parte esterna dello schienale. L’ estensione della collezione con un nuovo basamento in legno massello di frassino nasce per offrire una scelta più ampia e per favorire l’abbinamento con altri tavoli in legno presenti in catalogo.

Il basamento e le gambe in legno massello di frassino possono essere in finitura Naturale oppure tinto Wengé, tinto Moka, tinto a campione o laccato RAL a campione.

PEEK-A-BOOK LARGE

Roberto Lazzeroni

Peek-a-Book, la scrivania disegnata nel 2021 da Roberto Lazzeroni, in occasione della 2024 Imagine Collection torna in una versione maggiorata, con il top che si espande di circa 30 cm rispetto all’attuale. La scrivania Peek-a-Book è caratterizzata da un top sagomato realizzato con pannelli in multistrato di pippop controplaccati in MDF. La parte frontale curva, realizzata in poliuretano espanso ottenuto da stampo, si ripiega verso il basso a formare il fondo della scrivania e nascondendo, all’interno, cassetti e vani porta accessori. L’effetto visivo è quello di un prezioso libro rilegato in Pelle Frau®, che simboleggia la funzione stessa dell’oggetto: la scrivania è infatti il luogo deputato a produrre e a raccogliere le idee, i pensieri, i ricordi; la parte più intima e personale di chi vi studia o lavora.

La scrivania Peek-a-Book ha la base realizzata in legno massello di frassino tinto Wengé o tinto Moka con profilo a sezione triangolare. Il frontale dei cassetti è realizzato in MDF rivestito in Pelle Frau® in abbinamento al rivestimento del piano sagomato realizzato con pannelli in multistrato di pippop controplaccati in MDF. Il rivestimento del piano, frontale cassetti, pareti laterali e sportelli di accesso ai vani posteriori è realizzato in Pelle Frau® ColorSphere®. Dietro ai due cassetti frontali

sono presenti vani predisposti per il passaggio cavi, accessibili mediante sportelli laterali. La scrivania è disponibile con gli stessi optional previsti per la versione attualmente a listino. Solo il portapenne è previsto con una misura differente dedicata alla nuova larghezza del cassetto: Portapenne Large, rivestito in Pelle Frau® ColorSphere®.

BRERA

Guglielmo Ulrich

Per celebrare il suo 90° anniversario, la storica panca disegnata da Guglielmo Ulrich e ri-editata da Poltrona Frau torna, per l’occasione in un’edizione speciale multicolore. La trama della seduta è costituita unicamente da fasce color cuoio, realizzate in Pelle Frau® ColorSphere®66 India, che corrono sul lato lungo della panca per non spezzarne il profilo e mantenere la pulizia formale del prodotto, rispettando l’equilibrio tra rigore formale ed eclettismo cromatico tipico dell’opera di Guglielmo Ulrich. L’ordito è invece caratterizzato da una raffinata sequenza di tinte calde e fredde, sempre tratte dall’universo della Pelle Frau® ColorSphere®: Darsena, Bardiglio, Cocciopesto, Avorio e Garnet, che dialogano armoniosamente tra loro disegnando un motivo geometrico e materico di grande contemporaneità. La struttura e i due sostegni, rastremati e leggeri, sono in legno massello di frassino finitura Wengé, disponibile, su richiesta, anche in Moka. Brera 90th Anniversary è un’edizione speciale ordinabile a partire dal Salone del Mobile e fino al 31 dicembre 2024. E contrassegnata da una targa in metallo posta nella parte interna. A fianco dell’edizione 90th Anniversary debutta anche una nuova versione monocolore, sempre in Pelle Frau® ColorSphere®, che va ad aggiungersi a quella in Cuoio Saddle Extra già presente in catalogo.

Il contenitore è disponibile con apertura a destra o a sinistra. WATER ILLUSION

Assia Karaguiozova

Water Illusion, la collezione di vasi di Assia Karaguiozova, si arricchisce di una nuova sfumatura sui toni del verde, Emerald Whispers. Creati da maestri vetrai italiani con la tecnica del vetro colato lavorato a mano e colato in pasta, i vasi della designer bulgara, realizzati con tecniche artigianali in vetrerie veneziane, hanno forme irripetibili rendendo ogni pezzo unico. I ‘petali’ di vetro, irregolari e mossi, parlano il linguaggio delle onde e si presentano con uno spessore materico importante. La doppia texture all’interno richiama, a contatto con la luce, l’effetto dell’acqua su una superficie. I quattro modelli scultorei, due vasi e due ciotole in due diversi formati, si sviluppano al confine tra arte e design.

FR

Imagine est la capacité de penser au nouveau et de donner forme aux désirs. Imagine, le thème de la nouvelle collection Poltrona Frau, est une réflexion profonde sur le pouvoir de la liberté créative ; une attitude qui permet de renouveler le passé, d’interpréter le présent et de se projeter dans l’avenir.

Quelle place laissons-nous à l’imagination dans le monde d’aujourd’hui ? Poltrona Frau, à travers sa nouvelle collection Imagine, répond à cette question en explorant et en nous impliquant tous dans l’expérience de sa présentation à Milan, à l’occasion du Salon du meuble 2024 (« Salone Internazionale del Mobile »). Dans la peinture, dans la littérature, dans la musique (la merveilleuse chanson de John Lennon vient immédiatement à l’esprit), l’imagination a toujours joué un rôle central et reconnu. Mais celle-ci risque de rester confinée dans l’enceinte, pourtant vaste, de l’expression artistique individuelle. Au contraire, le défi de la Collection Imagine est précisément de transporter l’imagination dans notre contexte quotidien, de l’utiliser comme un outil pour transformer la réalité en fonction de nos besoins et de nos désirs.

Le mot « imagination » traduit le grec « eikasia », c’est-à-dire la capacité de penser en dehors des processus logiques. Une capacité que Poltrona Frau possède dans son ADN depuis l’époque de Renzo Frau et de ses intuitions techniques, esthétiques et commerciales. Et qu’elle continue de décliner de manière toujours nouvelle à travers son histoire, son catalogue et dans les différents volets de la collection qui, cette année, voit de nombreux nouveaux designers appelés à collaborer aux différents projets.

BRETAGNE GRAN COMFORT

Poltrona Frau Style & Design Centre

Bretagne, l’un des canapés les plus connus de Poltrona Frau, est maintenant rejoint par une nouvelle version : Bretagne Gran Comfort, dont l’ergonomie, les proportions et le revêtement ont été repensés. Le restyling se caractérise par un rembourrage plus abondant et plus structuré, avec des lignes horizontales et enveloppantes qui remontent jusqu’à la tête, pour rendre le canapé encore plus confortable et favoriser une convivialité détendue et spontanée. Les pieds et la structure caractéristique de la cuve qui distingue le modèle Bretagne restent inchangés. Ce qui a changé, en revanche, c’est le rembourrage interne, aux dimensions plus généreuses et plus accueillantes : les coussins du dossier ont été augmentés en taille et en rembourrage, pour servir de soutien lombaire et se relever pour accueillir la tête, tandis que les coussins de l’assise sont plus structurés, avec une ligne élégante accentuée par des coutures qui, en plus de leur fonction esthétique, contribuent à maintenir leur forme dans le temps.Le design innovant de Bretagne Gran Comfort est souligné par le revêtement qui, sur les parties structurelles (base, côtés

et dossier), peut également être réalisé dans le tout nouveau cuir Pelle Frau® Motif Knits en quatre couleurs différentes : Deep Lavender, Sesame, Grey Salt et Paprika. Ce cuir nubuck est imprimé à chaud, recréant l’effet similaire de fils entrecroisés (« twill ») également utilisée dans la fabrication de tissus. L’effet tactile et visuel, très tridimensionnel, crée un beau jeu de contrastes avec le cuir lisse ou le tissu d’ameublement.

HAPPY JACK

Ludovica Serafini + Roberto Palomba

Conçue par le duo Ludovica Serafini + Roberto Palomba, Happy Jack doit son nom à son accoudoir incurvé caractéristique en forme de souris. La collection évolue avec un ensemble d’éléments qui, tout en conservant les mêmes caractéristiques formelles, se distinguent par une ligne plus incurvée et enveloppante, porteuse d’un concept de convivialité plus facile et intime. Parmi les nouveautés, citons le Canapé d’angle à 45°, disponible avec accoudoir droit ou gauche ou sans extrémité, le Pouf monté sur les mêmes pieds que le canapé, aussi en version Large, et la Chaise Longue inclinable avec accoudoir droit ou gauche ou même sans accoudoirs. Avec les nouveaux modules, les configurations possibles se multiplient, s’adaptant à des espaces et des exigences différents. Happy Jack devient ainsi un meuble jouant un rôle encore plus prépondérant dans le living de Poltrona Frau, grâce à la variété des solutions, à la richesse des détails et à son élégance formelle. Les caractéristiques techniques d’Happy Jack se rattachent à celles des produits de la collection déjà en catalogue. Le revêtement peut être entièrement en cuir Pelle Frau®, en cuir Pelle Frau® assorti au tissu, en Cuir Saddle Extra pour la structure et en cuir Pelle Frau® ou tissu pour les coussins. Le siège inclinable est muni d’un mécanisme électrique à l’intérieur du coussin d’assise, qui permet de le soulever avec différents angles d’ouverture, afin de modifier l’inclinaison du dos et des jambes de la personne allongée. Le mouvement est facile à régler via télécommande sans fil. Sur les sièges inclinables, le rembourrage et les coutures diffèrent des modules et des canapés sans mécanisme car ceux-ci sont conçus afin d’être fonctionnels au mouvement.

OZWALD BOATENG X POLTRONA FRAU

Martha

Roberto Lazzeroni

Le revêtement utilisé pour le fauteuil Martha est Velvet Fabric Tribal. Sur un fond monochrome teint en quatre couleurs vives (Red, Green, Purple et Yellow), le motif Tribal noir est imprimé numériquement. La finition spéciale confère au velours un toucher doux et une agréable sensation dans la main. Le fauteuil Martha est également présenté aujourd’hui sous cette nouvelle forme, qui ajoute une touche dandy et sophistiquée à l’une des chaises les plus appréciées du catalogue Poltrona Frau. La nouvelle version présente donc un intérieur en velours, disponible en Red, Purple, Green ou Yellow, et un revêtement extérieur en Cuio Saddle Extra, dans les couleurs figurant actuellement sur la liste des prix.

PARKA

Draga & Aurel

Poltrona Frau présente sa nouvelle série de canapés modulaires Parka. Une collection qui marque le début d’une collaboration avec le duo créatif Draga & Aurel. Parka rend hommage à un vêtement désormais classique du streetwear des années 1990, typique de la culture grunge américaine et devenu par la suite le symbole de toute une génération. Tout comme ce vêtement légendaire, Parka est un canapé passe-partout, facile à combiner et extrêmement polyvalent, malgré sa forte personnalité. Les lignes douces et les volumes généreux rembourrés jusqu’au sol promettent confort et détente. La forme elliptique particulière du dossier, qui s’incline pour devenir un accoudoir puis un siège sans rupture, crée un espace concave ou convexe à la fois audacieux et accueillant, capable de s’adapter facilement à différents styles. La collection Parka comprend des éléments modulaires : un fauteuil concave ou convexe sans accoudoirs ou avec un accoudoir terminal, ce dernier également dans une version maxi, toujours à gauche ou à droite. Le revêtement peut être entièrement en cuir Pelle Frau®, dans les différents types présents dans le catalogue, ou dans la combinaison cuir + tissu. Dans ce cas, le premier revêtement est appliqué à la structure extérieure, tandis que le second est appliqué à l’assise, au dossier et à l’accoudoir. Les coutures sont de la même couleur.

SQUASH

Faye Toogood

Douceur, audace et plaisir en une seule collection : Squash, créée par l’artiste britannique Faye Toogood, séduit par sa nonchalance irrévérencieuse, dès son nom, ludique et sensuelle, reflétant une approche douce et sculpturale du design. La collection est confortable et accueillante dès le premier coup d’œil. Des formes exubérantes et audacieuses, mais douces et chaleureuses, dialoguent avec différents matériaux, souples ou rigides. Les lignes organiques et les rembourrages renversent la nature statique du mobilier formel. Des éléments typiques du folklore anglais sont réinterprétés et mélangés à des suggestions des années 1970. Squash propose une idée de l’élégance facile et moderne, composée d’objets uniques qui se présentent bien seuls, ensemble ou combinés avec d’autres meubles.

Poltrona Squash

Le fauteuil Squash, aux formes généreuses et chaleureuses, est constitué d’une structure rigide en Polimex® sur laquelle est posé le coussin large et douillet, recouvert de cuir Pelle Frau® ou de la combinaison cuir-tis-

su, entièrement déhoussable.

La structure et les pieds sont légèrement rembourrés, ce qui les rend agréables au toucher. Les pieds de la base sont recouverts de cuir. Le coussin d’assise et les accoudoirs sont en ouate de polyester et en mousse de polyuréthane à densité différenciée pour plus de confort. Le pied du siège est en contreplaqué de bouleau. Les combinaisons de couleurs recommandées par le designer pour le fauteuil Squash sont Cream, Sage, Blue et Brown.

Ottoman Squash

Complément idéal du fauteuil de la même collection, le confortable pouf Squash a une structure en contreplaqué de bouleau et est revêtu de cuir. Les pieds sont légèrement rembourrés de mousse de polyuréthane, ce qui les rend agréables au toucher. Le coussin du pouf est déhoussable, rembourré de mousse de polyuréthane et d’ouate de polyester, et peut être entièrement revêtu de tissu ou de cuir Pelle Frau®. Comme pour le fauteuil, les combinaisons recommandées par le designer sont Cream, Sage, Blue et Brown.

Squash Table

La table basse Squash présente un design audacieux et original, caractérisé par deux blocs de bois laqués espacés d’un coussin central revêtu de cuir Pelle Frau® ColorSphere dans une couleur assortie à celle des blocs. La table basse est disponible en quatre combinaisons de couleurs seulement : Cream, Sage, Blue et Brown. En option, un petit tapis de protection en cuir Pelle Frau® ColorSphere est disponible, assorti au coussin central de la table basse.

Squash Rug

Le tapis Squash, qui fait partie de la collection du même nom, présente un motif en damier inspiré des anciennes chaises anglaises en patchwork. Chaque carré a été peint à la main et l’œuvre d’art a été traduite en tissu en utilisant la technique traditionnelle du nouage berbère. Le tapis Squash est fabriqué à la main et est disponible en plusieurs tailles et couleurs. Les teintures et les fibres naturelles reproduisent le plus fidèlement possible la peinture à la main, tandis que le velours profond et les fils flous évoquent l’aspect nuancé des coups de pinceau. Tout en respectant des normes élevées en matière de développement durable.

DUO CHAIR/SMALL ARMCHAIR

Roberto Lazzeroni

La collaboration entre Ceccotti Collezioni et Poltrona Frau, qui a débuté en 2023 avec le lancement de la collection DUO, se poursuit aujourd’hui avec l’élargissement de l’offre. Cette année, l’accent est mis sur la salle à manger de la maison, avec de nouvelles propositions signées à nouveau par le designer Roberto Lazzeroni. Parmi les nouveautés, voici la nouvelle chaise rembourrée, avec ou sans accoudoirs, associée à la table en quatre variantes créées par Ceccotti Collezioni.

La gamme DUO est complétée par la banquette, dans une variante dimensionnelle, et par le buffet, dans une nouvelle finition pour le revêtement extérieur.

La chaise Duo, fabriquée par Poltrona Frau, est un siège rembourré aux lignes sinueuses et chaleureuses. Tout dans ce fauteuil communique une sensation de douceur et en même temps de dynamisme : les pieds arrière inclinés donnent de l’élan à la chaise à haut dossier ou au petit fauteuil qui s’élargit latéralement en deux chaleureuxes « oreilles ». L’assise convexe joue avec la légère concavité du dossier, en déplaçant les volumes. Le riche rembourrage, entièrement recouvert de tissu ou de cuir Pelle Frau®, ajoute un confort supplémentaire et invite à la détente et à la conversation. Les pieds en frêne massif peuvent être teintés Wengé ou Moka, teintés ou laqués RAL de la couleur de l’échantillon fourni par le client.

NICE

Poltrona Frau Style & Design Centre

La chaise Nice doit son succès à son design ergonomique et enveloppant. Les deux coques du dossier et de la structure se plient et se superposent comme deux feuilles de papier pliées, créant un espace dans le dos du dossier qui devient un signe distinctif et reconnaissable. Le revêtement souple en tissu ou en cuir Pelle Frau® souligne les formes confortables et accueillantes du fauteuil, qui peut également être revêtu de cuir sur l’extérieur du dossier. L’extension de la collection avec un nouveau pied en frêne massif a été créée pour offrir un choix plus large et pour faciliter l’association avec d’autres tables en bois du catalogue. La base et les pieds en frêne massif peuvent être en finition Naturelle (naturel) ou teintés Wengé, Moka, ou encore teintés ou laqués RAL de la couleur de l’échantillon fourni par le client.

PEEK-A-BOOK LARGE

Roberto Lazzeroni

Peek-a-Book, le bureau conçu en 2021 par Roberto Lazzeroni pour la Collection Imagine 2024, revient dans une version plus grande, avec un plateau plus large d’environ 30 cm par rapport à la version actuelle. Le bureau Peek-a-Book se caractérise par un plateau façonné en panneaux de contreplaqué de peuplier contrecollés avec du MDF. La façade incurvée, en mousse de polyuréthane moulée, se replie pour former le fond du bureau et dissimuler à l’intérieur des tiroirs et des compartiments à accessoires.

L’effet visuel est celui d’un livre précieux relié en cuir Pelle Frau®, symbolisant la fonction même de l’objet : le bureau est en effet le lieu où sont produites et rassemblées les idées, les pensées, les souvenirs ; la partie la plus intime et la plus personnelle de ceux qui y étudient ou y travaillent. Le bureau Peek-a-Book se compose d’un piètement en frêne massif teinté Wengé ou teinté Moka avec un profil de section triangulaire. La façade des tiroirs est en MDF recouvert de cuir Pelle Frau® assorti au revêtement du plateau façonné en panneaux de contreplaqué de peuplier contrecollés en MDF. Le revêtement du plateau, de la façade des tiroirs, des parois latérales et des portes d’accès aux compartiments arrière est en cuir Pelle Frau® ColorSphere®.

Derrière les deux tiroirs frontaux se trouvent des compartiments conçus pour le passage de câbles, accessibles par des portes latérales. Le bureau est disponible avec les mêmes options que la version actuellement dans la liste de prix. Seul le porte-stylo est fourni avec une taille différente, adaptée à la nouvelle largeur des tiroirs : Porte-stylos version Large, revêtu de cuir Pelle Frau® ColorSphere®.

BRERA

Pour célébrer son 90e anniversaire, le légendaire banc conçu par Guglielmo Ulrich et réédité par Poltrona Frau fait son grand retour dans une édition multicolore spéciale pensée pour cette occasion.Le tissage de l’assise est constitué uniquement de bandes de couleur cuir, confectionnées en SC 66 India, qui se dénoent sur le côté long du banc pour ne pas interrompre son profil et maintenir le côté épuré des formes du design, en respectant l’équilibre entre la rigueur formelle et l’éclectisme chromatique typique de l’œuvre de Guglielmo Ulrich. La chaîne, en revanche, se caractérise par une succession raffinée de tons chauds et froids, toujours issus de l’univers de Pelle Frau® ColorSphere® : Darsena, Bardiglio, Cocciopesto, Avorio et Garnet, qui instaurent un dialogue harmonieux entre eux, dessinant un motif géométrique et texturé extrêmement actuel. La structure et les deux supports, effilés et légers, sont en frêne massif avec une finition Wengé, également disponible en Moka à la demande. L’édition spéciale Brera 90th Anniversary peut être commandée de l’ouverture du Salon du Meuble au 31 décembre 2024.

Elle s’agrément d’une plaquette en métal apposée sur la partie intérieure. Une nouvelle version unie, toujours en cuir Pelle Frau® SC, est lancée aux côtés de l’édition 90th Anniversary, venant s’ajouter à celle en Cuir Saddle Extra déjà disponible en catalogue.

WATER ILLUSION

Assia Karagiozova

Water Illusion, la collection de vases d’Assia Karagiozova, s’enrichit d’une nouvelle teinte dans les tons de vert, Emerald Whispers. Créés par des maîtres verriers italiens selon la technique du verre coulé à la main, les vases de la créatrice bulgare, fabriqués dans des verreries vénitiennes, ont des formes non reproductibles, ce qui rend chaque pièce unique. Les « pétales » de verre, irréguliers et ondulés, parlent le langage des vagues et ont une épaisseur matérielle importante. La double texture à l’intérieur rappelle, au contact de la lumière, l’effet de l’eau sur une surface. Les quatre modèles sculpturaux, deux vases et deux bols de deux tailles différentes, se développent à la frontière entre l’art et le design.

Poltrona Frau Style & Design Centre

ZH
想象力是思考新生事物和塑造愿望的能力。想象,是Poltrona Frau新品系列的主题,也是对创作自由力量的深刻反思;是一种使我们能够更新过往、诠释当下并将自己投射到未来的态度。

当今世界中,我们能为想象留下多少空间呢? Poltrona Frau以其全新系列Imagi-ne在2024米兰国际家具展之际通过探索回答了这个问题,并让我们所有人都参与到了它在米兰的展示体验之中。

在绘画、文学、音乐(约翰·列侬的美妙歌曲立即涌入脑海)中,想象力始终发挥着核心且公认的作用。然而,尽管范围很广,但仍有可能仅仅局限于个人艺术表达的围栏之内。Imagine Collection系列的挑战恰恰在于将想象力带入我们的日常环境,将其用作根据我们的需求和愿望来改变现实的工具。

“想象力”一词译自希腊语“eikasia”,即超越逻辑过程的思考能力。自Renzo Frau时代以来,Poltrona Frau的DNA中就蕴藏着这种能力,同时它 also 具备技术、美学和商业方面的直觉。在其历史进程、产品目录和系列的不同集合中,公司都持续在向新的方式靠近,今年召集了许多新设计师进行多个项目的合作。

BRETAGNE GRAN COMFORT

Poltrona Frau Style & Design Centre

Bretagne是Poltrona Frau最为著名的沙发之一,现已推出一款全新版本: Bret-agne Gran Comfort,在人体工程学、比例和覆面方面都经过了重新考量。重新设计的特点在于它那丰盈饱满且更具结构性的坐垫,具有迎合头部的水平包络线条,使沙发更加舒适且有助于轻松自然的社交。

让Bretagne款型与众不同的支脚和特有浴缸式结构保持不变。有所改变的则是内部坐垫,尺寸更加宽敞且更加绵软:靠背垫的尺寸和填充物都有所增加,以充当腰垫并在上方支撑头部,而座垫则更具结构化,带有凸显优雅的缝线,具备美观功能的同时还有助于保持形状日久不变。Bretagne Gran Comfort的创新设计在结构部件(底座、侧面和靠背)覆面上得到了强调,覆面也可采用全新Pelle Frau® Motif Knits的四种不同颜色:深薰衣草色、芝麻色、灰盐色、红椒粉色。这种牛巴戈皮经过热印花再现了类似于布艺制作中也使用的浮雕编织(“斜纹织法”)效果。触觉和视觉效果非常三维,与光面皮革或布料制成的坐垫部分形成鲜明对比。

HAPPY JACK

Ludovica Serafini + Roberto Palomba

由Ludovica Serafini + Roberto Pa-lomba两人联袂设计,Happy Jack因其独具特色的微笑形弧度扶手而得名。该系列融合了一系列元素,在保持相同形状特征的同时以更加弯曲包络的线条独具一格,以此倡导一种更为轻松亲密的欢乐理念。新品包括:45°转角沙发,可配备右扶手或左扶手或是不带末端件;与沙发支脚设计相同的坐墩,大号版本也有提供;带右扶手或左扶手或是不带扶手的斜倚躺椅。全新模块允许您增加可能的配置,使其适应不同空间与需求。凭借解决方案的多样化、细节的丰富及其正式的优雅,Happy Jack成为Poltrona Frau客厅中一款更加核心的家具产品。覆面完全采用Pelle Frau®皮革或是Pel-le Frau®皮革搭配布料,结构采用Cuoio Saddle Extra皮革,坐垫部分的材质为Pelle Frau® 皮革或布料。斜倚式座椅的坐垫内部装有一部电动机机制,使您能够以不同的打开角度将其升高,以改变躺卧者背部和腿部的倾斜度。座椅活动可通过无线遥控器轻松调整。在斜倚式座椅中,垫充填料和缝线与不带电动机制的模块和沙发有所不同,因为这些垫充填料和缝线的设计旨在助力座椅的活动。

DUO CHAIR/SMALL ARMCHAIR
Roberto Lazzeroni
Cecotti Collezioni与Poltrona Frau之间的合作以DUO系列的推出而始于2023年,这项合作如今随着产品范围的扩展而延续。今年的聚焦点是住所的用餐区,全新提案依然由设计师Roberto Lazzeroni设计。新品中脱颖而出的是带有扶手或不带扶手的新款软包椅子,可搭配Cecotti Collezioni设计的四个不同款式的桌子。完善了DUO系列的还有尺寸各异的长凳以及外部覆面采用全新饰面的储物箱。

由Poltrona Frau设计的Duo Chair,是一款带有软垫且线条蜿蜒包络的座椅。这款小扶手椅中的一切都传达出一种柔软感,同时又充满活力:倾斜的后支腿为高靠背的椅子或横向扩展为两只欢迎“耳朵”的小扶手椅赋予了生气。凸形座椅与靠背的轻微凹形相辅相成,使其体积更具动感。饱满的垫充填料完全由Pelle Frau®皮革或布料覆面,增加额外舒适度同时带来休闲互动的感觉。实心白蜡木支腿可采用鸡翅木色或摩卡色、原色或RAL漆面原色。

NICE
Poltrona Frau Style & Design Centre
Nice座椅的成功归功于其符合人体工程学的包络设计。靠背和主结构的两个外壳像两张折叠的床单一样弯曲并重叠,在靠背后部形成一个空隙,成为一个独具一格且具有高度辨识度的标志。采用Pelle Frau®皮革或布料制成的定制化柔软覆面彰显了扶手椅那舒适温馨的形状,靠背外部也可用皮革进行覆面。该系列以一款全新白蜡木实木底座而得以延展,旨在提供更为广泛的选择并方便搭配目录中的其他木桌。

实心白蜡木底座和支腿可采用天然饰面或鸡翅木色、摩卡色、原色或RAL漆面原色。Stock'n Roll 系列柜子由 Sebastian Herkner 设计,灵感来自珠宝盒,设计简洁,但细节精致、材质奢华。Stoc-k'n Roll 可以放在扶手椅旁,也可以用作床头柜。它呈圆柱形,饰面边缘略微凸出主体,形成一个把手,便于打开。实心白蜡木底座和支腿可采用天然饰面或鸡翅木色、摩卡色、原色或RAL漆面原色。

BRERA
为了庆祝其诞生90周年,这款由Guglielmo Ulrich设计并由Poltrona Frau重审的历史悠久的长凳以一款特殊的彩色版本重新回归。

座椅的纹理仅由SC 66 India皮革制成的皮革色条带组成,条带沿着长凳的长边延伸,以免打破其轮廓并保持产品的形状整洁度,同时尊重Guglielmo Ulrich的作品中体现的典型形状严谨与色彩折衷主义之间的平衡。而经线的特点则是冷暖色调的精致序列,始终取自Pelle Frau® ColorSphere®的宇宙: Darse-na、Bardiglio、Cocciopesto、Avorio和Garnet之间相互和谐对话,描绘出一幅具有高度当代感的几何与材料图案。其结构和两个锥形支撑件均采用鸡翅木饰面的实心白蜡木制成,也可根据要求提供摩卡色饰面。

Brera 90周年纪念版是一款特别版,可从米兰国际家具展之际开始订购,截止日期为2024年12月31日。其标志是一块放置在内部的金属牌。

除了90周年纪念版之外,同样以Pelle Frau® SC皮革制成的全新单色版本也首次亮相,它被添加至已存在于目录中的由Cuoio Saddle Extra皮革制成的版本中。

STOCK'N ROLL
Sebastian Herkner
Stock'n Roll 系列柜子由 Sebastian Herkner 设计,灵感来自珠宝盒,设计简洁,但细节精致、材质奢华。Stoc-k'n Roll 可以放在扶手椅旁,也可以用作床头柜。它呈圆柱形,饰面边缘略微凸出主体,形成一个把手,便于打开。实心白蜡木底座和支腿可采用天然饰面或鸡翅木色、摩卡色、原色或RAL漆面原色。Stock'n Roll 柜子的支撑结构和柜门由弧形桦木胶合板和实心桦木制成。饰面采用 Pelle Frau® 皮革,配以同色系缝线。柜子有左开或右开两种柜门。只需要一个动作就可打开装有内侧小托盘的门,并露出一个带储物架的隔间。隔层板和托盘由桦木胶合板制成,并采用了与外表面相匹配的饰面。顶板可采用与内外表面相匹配的 Pelle Frau® 皮革或名贵的半抛光大理石。

WATER ILLUSION
Assia Karaguiozova
保加利亚设计师 Assia Karaguiozova 的花瓶系列 Water Illusion 新增了一款绿色调的新产品——Emerald Whi-spers。该作品由意大利玻璃大师采用浇注玻璃浆技术手工打造,在威尼斯烧制厂完成,其不可复制的外形使每件作品都独一无二。其不规则的玻璃“瓣叶”呈流动状,是波浪的语言,材质厚度相当大。内侧的双重纹理在光线的照射下,仿佛水在桌面流动一般。四款雕塑般的作品(两个花瓶和两个碗,形态各异)展示了艺术与设计的融合之美。

PET COLLECTION

Poltrona Frau Style & Design Centre

由 Poltrona Frau Style & Design Cen-tre 设计的宠物系列也扩大了产品范围。可调节的宠物牵引绳由防撕加固编织带制成,具备 Pelle Frau® 皮革手柄,颜色有 Ume (搭配酒红色和黄色的带子)、Cypress (搭配绿色和驼色带子)和 India (搭配驼色和绿色带子)。装饰配件由镀锌黄铜制成,安全扣由抛光镍制成,带有徽标的金属牌由压铸Zama制成,抛光镍表面处理。提供有两个尺寸:小型和中型。项圈由提花织带制成,带有 Pelle Frau® 皮革环,颜色有 Ume、Cypress 和 India,与牵引绳的面料组合一致。项圈上有一个固定环和一个带扣的活动环,还有一个用于系扣牵引绳的 D 形环。提供有从小号到大号不等的四种尺码。背带也有四种尺码,可调节脖颈和胸口处的带长,采用与项圈和牵引绳相同的材料和表面处理。金属部件由抛光镍镀锌铜制成。碗是无铅奶油色釉面陶瓷材质,采用三烧技术制成。它可以与防滑垫搭配使用,垫子采用仿皮和聚酯纤维制成,上面印有装饰图案。软垫有中号、大号两个版本。该产品为米色: Beady面料 (67% 粘胶, 33% 棉)。软垫套面拆卸方便,既可与狗床一起使用,也可单独使用。

TABLEAU
