corallo

*Nella forma ricorda le isole coralline.
La lucentezza del cristallo, richiama lo scintillio delle acque
scaldate dalla luce del sole.*

STUDIO IN PROJECT

*The shape is reminiscent of coral islands.
The sheen of the crystal, recalls the sparkle of the water
warmed by sunlight.*

dewy

In una fresca mattinata primaverile un lungo filo d'erba si arcua dolcemente, gravido di regolari goccioline di rugiada che rifrangono la calda e tenue luce solare del primo mattino.

ALBERTO GHIRARDELLO

On spring morning, a long blade of grass arches gently, pregnant with regular dewdrops that refract the warm, soft early morning sunlight.

Particolari - Details

Collezione modulare e personalizzabile nelle lunghezze, con vetri in borosilicato decorati per una luce armoniosa. Boccole in alluminio tornito permettono flessibilità e adattabilità nelle forme. All'interno un neonflex 360° percorre l'intera collana senza interruzioni di luce. Possibilità di scegliere 3000 k / 4000 k

Modular collection, customisable in lengths, with decorated borosilicate glass for harmonious light. Turned aluminium bushings allow flexibility and adaptability in shapes. Inside, a 360° neonflex runs through the entire necklace without interruption of light. Choice of 3000 k / 4000 k

NB: DEWY è DISPONIBILE NELLA VERSIONE FIXED E NELLA VERSIONE MOLDABLE.

FIXED VERSION: con anima interna che rende la composizione perfettamente lineare. Possibile lineare orizzontale e lineare verticale. Il modulo proposto è di max 4 elementi con possibilità di affiancare altri moduli per composizioni project.

MOULDABLE VERSION: Senza anima interna, la composizione può creare forme morbide nello spazio. Sono forniti i terminali e n6 agganci singoli per modellare la composizione autonomamente. Ciascuna Dewy potrà essere composta da max 16 elementi. La dimensione indicata è la lunghezza totale della composizione. La conformazione del disegno è puramente indicativa.

* Per qualsiasi richiesta o differente versione non esitate a contattarci.

NB: DEWY IS AVAILABLE IN THE FIXED VERSION AND IN THE MOLDABLE VERSION.

FIXED VERSION: with an internal core that makes the composition perfectly linear. Horizontal linear and vertical linear possible. The proposed module is a maximum of 4 elements with the possibility of adding others for project compositions.

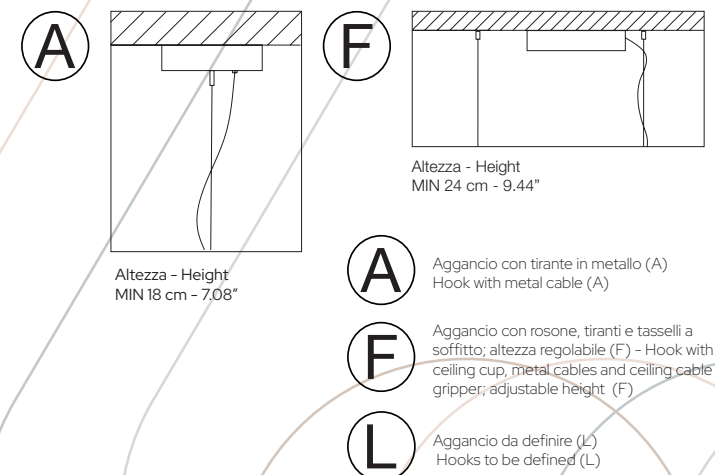

MOULDABLE VERSION: Without an internal core, the composition can create soft shapes in space. End pieces and n6 individual hooks are provided to shape the composition independently. Each Dewy can be composed of up to 16 elements. The size indicated is the total length of the composition. The shape of the drawing is purely indicative.

* Please do not hesitate to contact us for any requests or different versions.

dopamine

la dopamina nasce nel movimento, nei sentieri immersi nella natura, nei viaggi verso l'altrove. La collezione ne cattura l'essenza: forme morbide, asimmetrie intrecciate, echi di piante esotiche. Un richiamo discreto al sole del sud, per portare armonia e meraviglia negli spazi di ogni giorno.

ALEXEY DANILIN

dopamine is born in movement, in paths immersed in nature, in journeys to the elsewhere. The collection captures its essence: soft shapes, interwoven asymmetries, echoes of exotic plants. A discreet call to the southern sun, to bring harmony and wonder to everyday spaces.

Particolari - Details

Collezione in acciaio realizzata su disegno. Gli elementi sono curvati a mano da maestri artigiani su sagome. Saldature ad argento. Alcune componenti sono tornite e fresate. DOPAMINE S1 e DOPAMINE s2 hanno come fonte luminosa lampadine GU10 direzionate verso il basso. DOPAMINE project si arricchisce di sospensioni con sfera in borosilicato per illuminare l'intera composizione anche dall'alto. Dopamine è decorata successivamente in colori ral. E' possibile richiedere differenti colorazioni RAL.

Steel collection made to design. The elements are hand bent by master craftsmen on templates. Silver soldering. Some components are turned and milled. DOPAMINE S1 and DOPAMINE s2 have GU10 bulbs directed downwards as a light source. DOPAMINE project is enhanced with borosilicate sphere suspensions to illuminate the entire composition also from above. Dopamine is subsequently decorated in RAL colours. It is possible to request different RAL colours.

Theorem

Alexey Danilin

Particolari - Details

Theorem è una collezione che nasce dallo studio della luce e la sua propagazione. La fonte luminosa inserita sulla base riflette su una sfera in borosilicato con doppia decorazione: oro lucido/cromo lucido – bianco latte. Ruotando manualmente la sfera e quindi la destinazione della luce si ottengono propagazioni differenti del fascio di luce. Base in legno tornita su disegno. Legno noce/frassino. Cilindro in vetro borosilicato; Diffusore in PMMA opalino tagliato laser.

Theorem is a collection born from the study of light and its propagation. The light source inserted on the base reflects on a borosilicate sphere with a double decoration: shiny gold/chrome - milk white. By manually rotating the sphere and thus the destination of the light, different propagations of the light beam are obtained. Wooden base turned to design. Walnut/ash wood. Borosilicate glass cylinder; laser-cut opaline PMMA diffuser.

henos

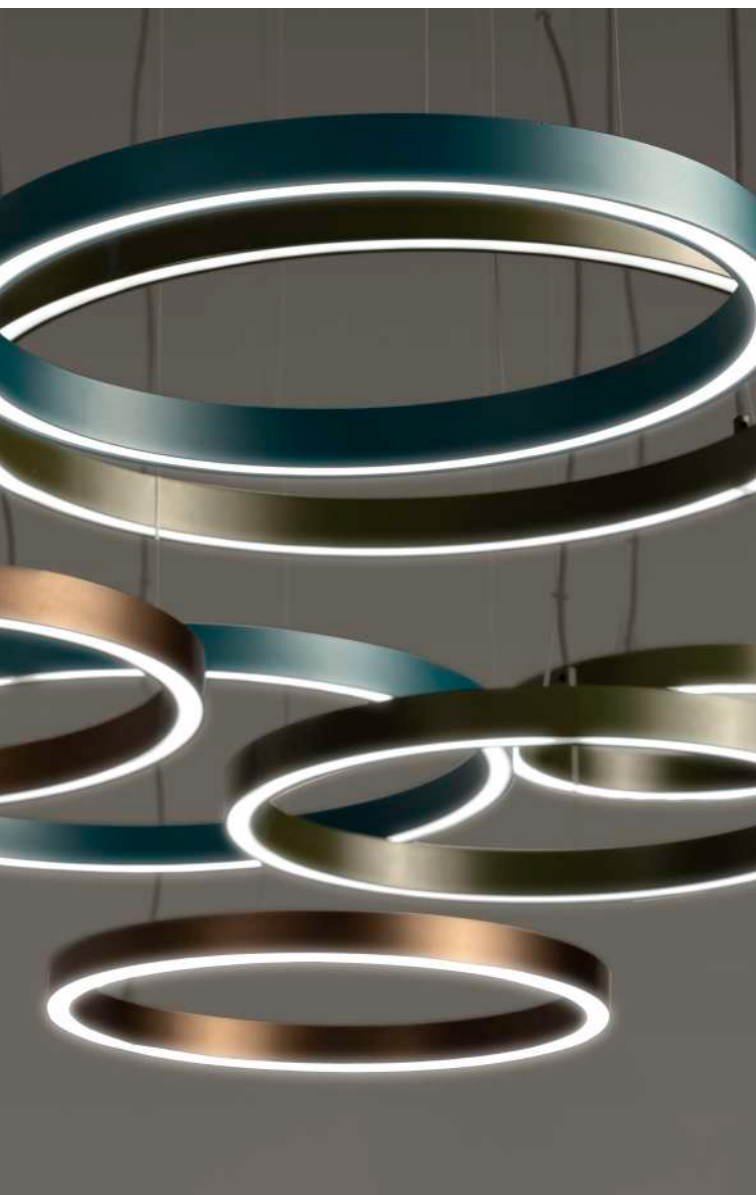

Ispirato dai dettagli, il designer ama la forza delle piccole cose che insieme e unite formano una complessa creazione. Henos dal greco antico "henosis" che significa "unione". Unione del sole e della luna per un'eclissi e delle energie cosmiche per un "misterioso" buco nero.

MICHELE LOSITO

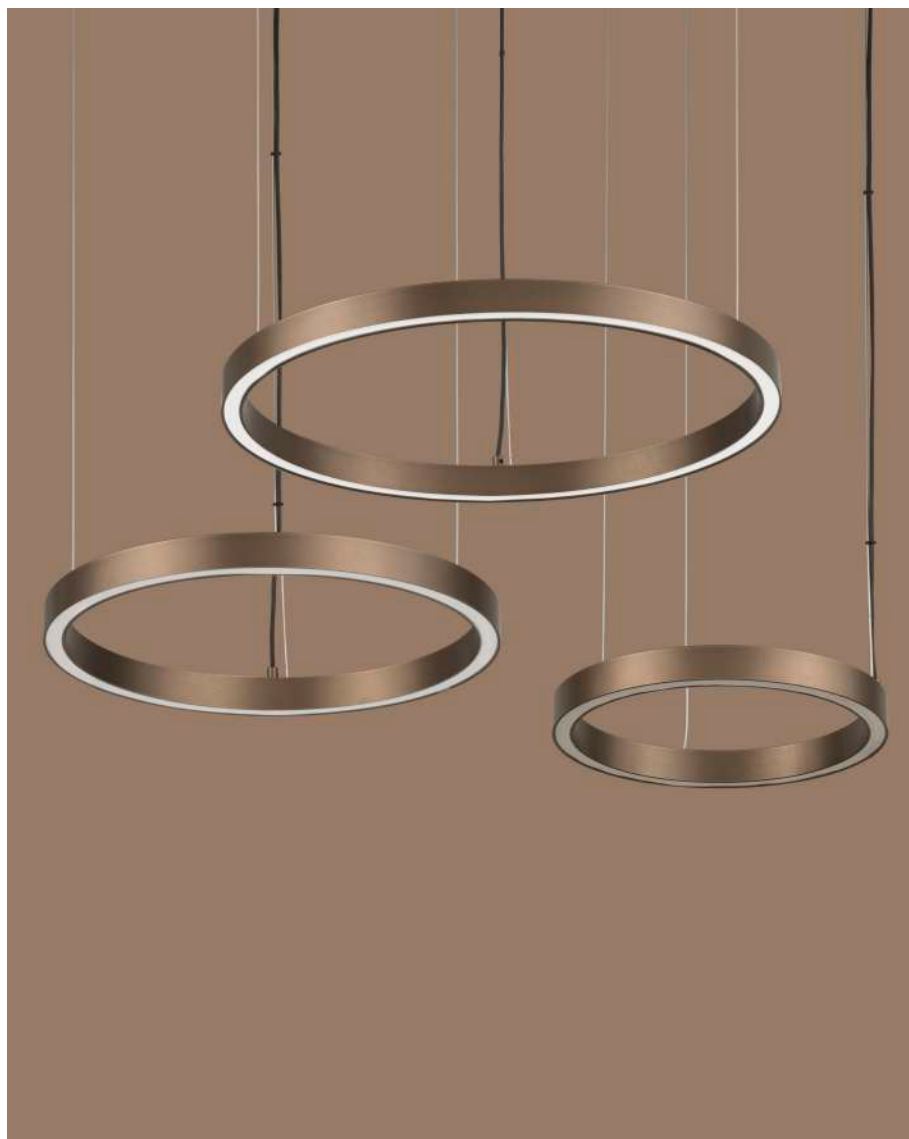

Inspired by details, the designer loves the power of small things that together and united form a complex creation. Henos from the ancient Greek "henosis" meaning "union". Union of the sun and moon for an eclipse and cosmic energies for a "mysterious" cosmic black.

nido

Nido è una lampada da tavolo progettata su due segni, un cerchio e una linea, che si incrociano l'uno all'altro in un equilibrio formale e senza regole. Il designer ha voluto esprimere la sensazione del comfort, quando si è nel proprio nido, liberi di creare.

SIMONE DI LIDDO

Nido is a table lamp designed based on two shapes, a circle and a line, which intersect with each other in a formal balance and without rules. The designer wanted to express the feeling of comfort, when you're in your own nest, free to create

pegaso

Pegaso prende ispirazione dall'idea di associare la luce a quella delle stelle in cielo che da millenni disegnano nello spazio figure mitologiche e altre immagini, come la costellazione che dà il nome a questa lampada.

CRISTIAN VISENTIN

The Pegaso is inspired by the idea of associating light with the stars in the sky, which for thousands of years have drawn mythological figures and other images in space, such as the constellation that gives this lamp its name.

trama

Ispirato dall'intricato intreccio dei tessuti, Trama combina la trasparenza e la purezza del vetro con la struttura sofisticata dei tubi dritti. Ogni elemento, meticolosamente lavorato, richiama la delicatezza dei fili intrecciati, creando un gioco di luci e ombre che danza nello spazio.

STUDIO IN PROJECT

Inspired by the intricate weaving of textiles, Trama combines the transparency and purity of glass with the sophisticated structure of straight tubes. Each meticulously crafted element recalls the delicacy of woven threads, creating a play of light and shadow that dances through space.

Particolari - Details

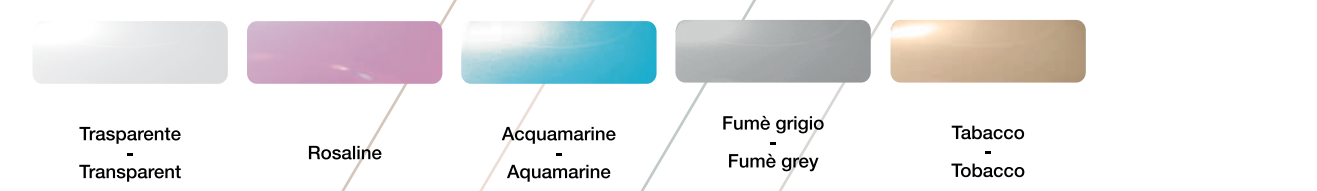

Trama è una collezione composta da elementi singoli in differenti lunghezze ma che affiancati possono strutturare progetti ad-hoc anche di estese dimensioni. Ricreano nell'aria una trama luminosa personalizzabile. Gli elementi di Trama sono in borosilicato trasparente o decorato e all'estremità sono inserite le boccole in alluminio tornito e le cover in metallo stampato. L'elemento luminoso è un Neonflex 360° ed illumina il tubo in borosilicato per tutta la sua lunghezza. Trama è già disponibile nelle misure indicate nei disegni. Per qualsiasi richiesta o differente versione non esitate a contattarci.

Trama is a collection made up of single elements in different lengths but which, when placed side by side, can create ad hoc projects even of large sizes. They recreate a customizable light pattern in the air. Trama's elements are made of transparent or colored borosilicate glass with turned aluminum bushings and molded metal covers at the ends. The light source is a 360° Neonflex, that lights up the borosilicate tube along its whole length. Trama is already available in the sizes shown in the drawings. Do not hesitate to contact us for any request or different version.
